***Claim Rejections - 35 USC § 103***

1. Claims 10-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Foster (2732211) in view of Pridgeon (5333877).

Foster teaches playing pieces of first (13a) and second (13b) colors, characterized by removable blocks (2:15-19) having grips (14). Foster teaches supporting surface (10). Foster teaches raised peripheral edge (10b). Foster teaches playing pieces of first (13a) and second (13b) colors, characterized by removable blocks (2:15-19) having grips (14), supporting surface (10), raised peripheral edge (10b), and gripping means characterized in blocks (14,13).

Foster teaches all limitation except that it does not teach the gripping means in the shape of a raised knob.

Pridgeon teaches a raised knob as a gripping means (20).

Whereas some players have small fingers for gripping a block through the recess portions as demonstrated by Fosters, others with bulky hands find difficulty in picking blocks. In order to make it easy for all players, it would have been obvious to use a raised gripping means on blocks. One of ordinary skill in art at the time the invention was made would have suggested raised gripping means as knobs for picking the blocks.

***Response to Arguments***

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
